

Happy Hours at the Pamet Harbor Club

Happy Hours are usually Friday Nights at 6 pm with an occasional switch to Saturday or other night. In October, Happy Hour may start earlier, so we don't miss the sunset.

- You do not have to sign-up to attend.
- Please check our [website calendar](#) for the Happy Hour schedule and other social events.
- Guests are always welcome to attend with you!
- When you arrive, please complete a Name Tag.....we know it's corny, but so very helpful!

Please bring food to share.

- The kitchen is available for unwrapping, plating or food preparation including use of the oven/stove and microwave.
- Food labels are available for you to let folks know what you brought and to highlight any ingredients for people with food allergies (nuts, shrimp, etc.)
- When you are ready to leave Happy Hour, please take your serving dish and any leftover food home with you. We have food wrap and aluminum foil available for packaging leftovers.
- If you decide to come "last minute" and don't have any food to share that night, please still come and enjoy.

Happy Hours are **BYOB** - Bring Your **OWN** Alcohol. The club does **not** provide any alcohol.

- Please bring alcohol for your personal consumption.
- There will be a table with a large bin with ice to keep your drinks cool.
- The club provides ice for your drinks, as well as, coke, diet coke, ginger ale, tonic water, club soda and seltzer (regular and lime).
- Please discard or bring home any of your leftover alcohol.

The Club Provides - in addition to ice, mixers & soda

- "Real" Glasses – wine, beer, low ball and martini glasses
- corkscrews, ice tongs and ice bucket
- napkins, appetizer plates, toothpicks and utensils
- lime wedges for drinks

We re-cycle - wine bottles, beer bottles and cans, etc. Please rinse them before placing in the blue recycling bins.

We continue to live with COVID-19, as well as other contagious illnesses such as the seasonal flu and RSV, as ongoing risks. When considering whether to attend a club event, please take appropriate precautions for yourself, as well as your fellow club members, including staying up to date on your vaccines, wearing masks as you feel necessary, and staying home to rest if you are experiencing any symptoms or believe you may have had recent exposure.
